

PickleMaster System

30 Gallon Keg Method

MIXING DEVICE: 1 or 1.5 hp 3/4" drill with 55 gallon drum paddle mixer

PickleMaster	30 gallon keg
ColorPlus Pigment Dispersion	2 gallons
Water	Min. 12 gal./Max. 13 gal.

PickleMaster	15 gallon
ColorPlus Pigment Dispersion	1 gallon
Water	6 - 6 1/2 gallons

1. Start with 1 full keg of PickleMaster and 1 clean, empty keg.
2. Split 1 keg of PickleMaster material evenly into 2 kegs.
3. You will have 15 gallons in each keg.
4. Add 1 gallon of ColorPlus to each keg.
5. Rinse out the empty ColorPlus Pigment pails into clean, empty 5-gallon buckets. This step helps to clean the remaining pigment out of the ColorPlus pails while accounting for your dilution water.
6. Add 6 gallons of clean water to each keg and mix until all parts are combined into a creamy consistency.

Note: During hot temperatures use max. range of water dilution, but do not exceed!
